

# ACTIVITIES 2019

**FRONTLINE  
NEGOTIATIONS**

**CENTRE OF COMPETENCE ON  
HUMANITARIAN NEGOTIATION**

The Centre of Competence on Humanitarian Negotiation regularly organizes activities for frontline staff and operational managers of humanitarian organizations involved in humanitarian negotiations. For more information and to apply, please visit [www.frontline-negotiations.org](http://www.frontline-negotiations.org).

*Last updated: May 22, 2019*

# ACTIVITY LEVELS

- **Level 1**  
Introduction to practical negotiation tools and peer support methodologies. Open to humanitarian practitioners with at least 3 years of field experience.
- **Level 2**  
Advanced-level activities such as the Training of Facilitators, specialized workshops, retreats, and the Peer Circle Program. Open to field practitioners who previously completed a Level 1 activity.

# TYPES OF ACTIVITIES

- **Peer Workshop Program**  
The Peer Workshop Program aims to develop field practitioners' capacity to analyze the humanitarian negotiation environment they work in and improve their ability to plan multi-stakeholder negotiation processes. It introduces participants to practical negotiation tools and methods elaborated on the basis of the latest empirical research conducted by the CCHN. The Peer Workshop Program serves as a gateway to a global community of frontline negotiators and opens up Level 2 activities.
- **Training of Facilitators**  
The Training of Facilitators Program introduces participants to a series of facilitation techniques to guide humanitarian professionals through the application of the negotiation methodology developed by the Centre of Competence on Humanitarian Negotiation. This two-step program prepares participants to facilitate specific CCHN modules that were designed to serve humanitarian professionals who conduct humanitarian negotiations in field operations. After completing the training sessions, participants can join practice-oriented CCHN workshops as facilitators.
- **Peer Circles Program**  
The Peer Circle Program provides an opportunity for field practitioners to apply CCHN tools and methods as part of their day-to-day work; hence bridging the gap between theory and practice. Through self-assessments and regular peer-to-peer sessions, participants examine how CCHN negotiation tools and methods are applicable to their operational context. Members benefit from individualized attention as well as a continuous long-term opportunity for collective peer support in the planning of their humanitarian negotiations in a non-prescriptive manner and based on shared experiences rather than policy or operational advice.
